

Advance energy penang Syria

Who is advanced energy?

Advanced Energy - a global leader in power solutions- expands global footprint with new facility in Penang, Malaysia to serve semiconductor and industrial customers in a region known for its rich community of high-tech manufacturing experts.

Why is advanced energy launching a new facility in Penang?

The new facility in Penang will not only enable us to get physically closer to many of our customers in the region but also provide greater business continuity and redundancy." Advanced Energy's new 178,000 square-foot facility will manufacture a variety of its precision power supplies and generator products.

Where is advanced energy located?

Situated in the heart of Southeast Asia on the country's northwest coast by the Malacca Strait, the state of Penang has long served as an important outlet to the markets of Europe and the Middle East, making it an ideal location for Advanced Energy's state-of-the-art manufacturing facility. This press release features multimedia.

Who is Advance Energy Sdn Bhd?

Advance Energy Sdn. Bhd. is an enterprise based in Malaysia. Its main office is in Jitra. It operates in the Plastics Product Manufacturing industry. It was established on July 22, 1993. From the latest financial highlights, Advance Energy Sdn. Bhd. reported a net sales revenue drop of 33.48% in 2023.

Why should we open a new Penang facility?

new Penang facility serves to diversify and expand our global footprint to better serve our customers and stakeholders near their locations. Given Southeast Asia's reputation for top technical talent and as an emerging hub of global innovation, opening a facility in the region simply makes sense.

Why should you choose Penang?

It's an ideal location for meeting your evolving precision power needs. The Association of Southeast Asian Nations (ASEAN) is on track to becoming the fourth largest market in the world by 2030.* new Penang facility serves to diversify and expand our global footprint to better serve our customers and stakeholders near their locations.
