The Tissue-Tek®; Lab Aid®; Ultra(TM) II is the next generation of large capacity slide and cassette (block) storage units with integrated security features. The renewed Lab Aid®; Ultra(TM) II has improved construction making the cabinet sturdier, and reducing the risk of damaged goods during shipment.

What"s more, the cabinet has a capacity of up to 1,500 cassettes! Cabinet Base and Casters - the Perfect Compliment. Made specifically for the Avantik Block Storage Cabinet, the block storage base is designed to hold the cabinet using reciprocal grooves to secure the cabinet within the base. The base helps keep your blocks safe and off the floor.

In these mobile storage systems, shelving units slide on floor tracks, eliminating the wasted aisle space between traditional static pathology slide storage cabinets. A high-density storage system can increase your pathology lab storage capacity by over 100%, comfortably accommodating your current storage needs and creating room for future growth.
