

Antigua and Barbuda mobile bess

Should I buy a prepaid SIM card for Antigua & Barbuda?

When it comes to buying a prepaid sim card there are only 2 mobile operators and few stores. And like most other things in Antigua & Barbuda, a prepaid sim card for tourists with data it is NOT cheap. Although most hotels and resorts in Antigua have ok WiFi, I would still advice you to buy a sim card for Antigua.

Does Antigua & Barbuda offer eSIM?

Unfortunately, none of the mobile operators offer eSIM to prepaid customers in Antigua & Barbuda yet. Note that the Antiguan and Barbudan mobile operators require your identification (passport) for (future) eSIMs and physical SIM cards (will be discussed later). However, you can also get a travel eSIM from various eSIM providers.

How to get data in Antigua?

Finally, the last option is to buy an eSIM card for Antigua or, if you're traveling to multiple countries, an eSIM plan for the Caribbean. eSIM is a new concept allowing you to have a virtual SIM card inside your phone. If your mobile phone supports eSIM cards - it's definitely one of the best options to get data in Antigua. Curious?

Does Antigua and Barbuda have 4G/LTE?

4G/LTE: unknown (probably 700 MHz on Band 13 or 1700 MHz on Band 4) APUA inet Mobile has extensive coverage throughout Antigua and Barbuda. It even has better 4G/LTE coverage in the country due to some shady practices by the Antiguan and Barbudan government (remember - APUA inet is state-owned).

How much does mobile data cost in Antigua & Barbuda?

The world average is 4.07 USD. Antigua and Barbuda are literally average in terms of mobile data costs in the Caribbean. There are quite some countries where the average cost of 1 GB of data is cheaper than Antigua and Barbuda.

Does Antigua & Barbuda use GSM?

Antigua and Barbuda use GSM for their cellular communications, meaning that you need a GSM-capable phone to use your phone in the country. Fortunately, there is about a 99% chance your phone supports GSM. Besides that, you need to be aware of the ITU Regions to determine whether your phone will work in other parts of the world.
