

# Average domestic energy storage price per 50kWh in Romania

How much does electricity cost in Romania?

The average electricity price for households peaked in the second semester of 2022, amounting to 34.11 eurocents per kWh. However, only a small part of the electrical energy generated in Romania was destined for household consumption in 2024, most of it being directed towards industry consumption.

How much gas is in storage in Romania?

In Romania, the amount of gas in storage has fallen to 63% in just one and a half months, with more than a third of the gas in storage being consumed, a steeper fall than the European average, according to Gas Infrastructure Europe. On January 8, 2025, the filling rate of storage facilities in Romania was 61.74%.

How will high energy prices affect Romania?

Regional implications Romania is at risk of maintaining its top position in terms of high energy prices, which could affect the competitiveness of industry and the population's purchasing power.

What is dynamic pricing in Romania?

Romania has officially entered the dynamic pricing era: Dynamic tariffs track hourly market prices, rewarding off-peak usage. Enabled by smart meters and EU rules. Best suited for EV owners, flexible households, and energy-aware businesses.

How much solar will Romania have in 2023?

Over 600 MW of new capacity was added in 2023 - 496 MW of that was solar. Romania is targeting 8.3 GW of solar and 7.6 GW of wind by 2030. Prosumers (like households with rooftop PV) are growing fast, backed by generous subsidies.

How much solar will Romania have by 2030?

Romania is targeting 8.3 GW of solar and 7.6 GW of wind by 2030. Prosumers (like households with rooftop PV) are growing fast, backed by generous subsidies. But there are growing pains: grid bottlenecks are slowing down connections, prompting new rules and capacity auctions starting in 2026.

The assessment adds zinc batteries, thermal energy storage, and gravitational energy storage. The 2020 Cost and Performance Assessment provided the levelized cost of energy. The 2022 Cost and Performance Assessment ...

The average natural gas price for household consumers in the EU, calculated as a weighted average using the most recent consumption data from 2023 and prices from the second half of 2024, was EUR 0.1233 per kWh.
