

Average residential solar battery price per 20kW in Belgium

Can you plug in a solar panel in Belgium?

You cannot just plug in any solar panel or home battery yourself. Only devices homologated by Synergrid can be used in Belgium. Synergrid has a list online, but it is unreadable for the average consumer.

How much does a solar system cost?

The total cost for these systems generally falls between EUR5,000 and EUR12,000, including installation and essential components. A standard 7kWh system, suitable for a three-bedroom home, usually costs around EUR8,500. This investment typically includes the battery unit (EUR4,000-6,000), inverter (EUR1,500-2,000), and installation labour (EUR1,000-1,500).

Can solar panels be installed in Brussels?

In Brussels, additional regulations are added: the solar panels can not be visible from a public space, and they do not protrude more than 30cm off the roof. For the installation of solar panels on the ground, on a protected building or in other regulated cases, you will have to contact your municipality.

How much does a 7kWh Solar System cost?

A standard 7kWh system, suitable for a three-bedroom home, usually costs around EUR8,500. This investment typically includes the battery unit (EUR4,000-6,000), inverter (EUR1,500-2,000), and installation labour (EUR1,000-1,500). Additional components such as monitoring systems and smart controls add approximately EUR500-1,000 to the total.

How much subsidy can I get for solar panels in Flanders?

Currently, the maximum amount of subsidies you can receive for the instalment of solar panels in Flanders is EUR750. In 2024 the maximum subsidy will decrease to EUR375. The subsidy amount is always limited to 40% of the total investment costs including VAT, as stated on the invoices. What Is The Yield Of Solar Panels In Belgium?
