What is a Bess battery?

The BESS facility will be equipped with Tesla Megapack technology. The project will be built at Nantes Saint-Nazaire harbour. Credit: #169; Harmony Energy. UK-based Harmony Energy has announced that it will commence construction on the Chevir#233; battery project, France's largest battery energy storage system (BESS).

How is Bess being monetised?

Alongside ancillary services and trading opportunities, large-scale BESS is also being monetised through low-carbon capacity market contracts, with 253MW of projects winning in a 2020 auction. Energy-Storage.news' publisher Solar Media will host the 9th annual Energy Storage Summit EU in London, 20-21 February 2024.

How much Bess will France have in 2023?

France had just under 900MW/900MWh of BESS online by the end of 2023 according to data from LCP Delta, and should deploy around 300MW a year over the next few years.

Le officiel de l'administration Service-public a pour mission d'informer l'utilisateur et de l'orienter vers les services qui lui permettent de conna#238;tre ses obligations, d'exercer ses droits et d'accomplir ses d#233;marches administratives..
