

Bosal storage systems Maldives

What does bosal do?

BOSAL is committed to driving innovation in global mobility and energy by developing and manufacturing technological solutions with agility through its four market segments: Powertrain, Chassis, Energy, and Packaging Solutions. The BOSAL Group plays a major role in shaping a cleaner future.

Who is bosal energy?

With over 20 years of expertise in the development, testing, and production of advanced heat exchangers, BOSAL Energy offers customized solutions for the evolving hydrogen economy. Our energy conversion systems are engineered for high-temperature and high-pressure environments.

What makes bosal group a great company?

The BOSAL Group plays a major role in shaping a cleaner future. From automotive to energy solutions, our products are recognised and valued by our customers worldwide. It's a fact we're immensely proud of. Our constant (and successful) journey to make agility our strength is something we're proud of too.

Why should you choose bosal aftermarket?

BOSAL Aftermarket provides all-round service for an extensive product range, with fast delivery. BOSAL supplies the global aftermarket customer with a wide range of innovative, competitive, and type-approved products, with enhanced logistics including dedicated e-business solutions. BOSAL's vertical integration makes the difference.

How does bosal contribute to a cleaner world?

Family-owned BOSAL, with 2,500 employees worldwide, contributes to a cleaner world by consistently innovating in mobility and energy. BOSAL proudly offers tailored solutions to meet the challenges of the hydrogen economy with 20 years of experience in the development, testing, and production of highly effective heat exchangers.

BOSAL Powertrain manufactures fully integrated emission control systems that meet future demands for near-zero emissions, in close collaboration with many of the established Original Equipment Manufacturers (OEMs). Key product lines at BOSAL Powertrain are: Conventional powertrain (ICE) Electric vehicle powertrain (EV) Fuel cell powertrain
