

Find company research, competitor information, contact details & financial data for Smart Energy Solutions d.o.o. of Zagreb, Grad Zagreb. Get the latest business insights from Dun & Bradstreet.

Similarly, in China, building energy use accounts for about 30% of the total social energy demand at present [40]. This proportion is huge as China is the largest energy consumer in the world [41]. Therefore, the urgency of improving the building energy efficiency pushes these two countries to actively encourage the development of this field.

For example, for multi-residential buildings, the primary energy criterion includes primary energy for heating, DHW and ventilation, if foreseen, and the maximum allowed value in the continental climate of Croatia is 80 kWh/m² per year for new multi-residential buildings and 180 kWh/m² per year for existing buildings undergoing a ...
