

# Bulgaria ix renewables

Why did Bulgaria start exploring alternative energy options?

As a result, Bulgaria started to explore alternative energy options and sought to diversify its energy supply. This included increased interest in renewable energy sources, as well as efforts to strengthen its energy ties with the EU.

Does Bulgaria have a good energy sector?

Bulgaria's energy sector is at a critical juncture, with two main objectives shaping its direction: decarbonization and reducing reliance on Russian energy. Over the past year, Bulgaria has made considerable progress in expanding its renewable energy capacity, particularly in solar power.

How has Bulgaria's energy policy changed under Borisov?

Under the leadership of Prime Minister Boyko Borisov, Bulgaria's energy policy began to shift toward closer alignment with the European Union. Borisov's government, which came to power in 2009, was more sceptical of Bulgaria's heavy reliance on Russian energy.

Is Bulgaria getting more solar power?

Over the past year, Bulgaria has made considerable progress in expanding its renewable energy capacity, particularly in solar power. Solar energy production has surged from one gigawatt (GWh) in 2019 to more than three GWh today, with solar accounting for nearly half of the country's electric capacity from renewables.

What is the renewable resource potential of Bulgaria?

World RENEWABLE RESOURCE POTENTIAL Distribution of solar potential Distribution of wind potential World Bulgaria Biomass potential: net primary production Indicators of renewable resource potential Bulgaria 0% 20% 40% 60% 80% 100% area <260 560260 -420670560820-670 -820 -1060 >1060 Wind power density at 100m height (W/m<sup>2</sup>)

Does Bulgaria have a good energy mix?

In recent years, with the help of the European Community, Bulgaria has invested in key infrastructure projects with partners such as Greece, Romania and Serbia, which will benefit its energy mix in the long term.
