

How is energy used in Burkina Faso?

Total energy supply (TES) includes all the energy produced in or imported to a country, minus that which is exported or stored. It represents all the energy required to supply end users in the country.

Is Burkina Faso electrified?

Burkina Faso is one of the least electrified countries globally, currently at 19% overall, with 60% of the urban and only 3% of the rural population connected to electricity. Access to non-solid fuels is also very limited, reaching around 8% nationally.

What are the different types of energy transformation in Burkina Faso?

One of the most important types of transformation for the energy system is the refining of crude oil into oil products, such as the fuels that power automobiles, ships and planes. No data for Burkina Faso for 2021. Another important form of transformation is the generation of electricity.

How has Burkina Faso changed over the years?

Burkina Faso has made remarkable progress in recent years, with an increase in installed capacity from 324.6 megawatts (MW) in 2017 to 410 megawatts in 2019. The share of renewable energy also surged from 9.4% in 2015 to 18.36% in 2019.

How long does a power outage last in Burkina Faso?

The average power outage time was 233 hours in 2018, compared with 172 hours in 2017. In addition, the cost of energy remains high for households and businesses, at XOF 75 per kWh of high-voltage electricity in 2019. No on-grid IPPs operating in Burkina Faso

Does Burkina Faso need a cooperative-mini-grid model?

Few incentive policies targeting especially renewable energies exist, although Burkina Faso will rely on private investments. Existing policies hamper mini-grid development and limit the growth of modern decentralized energy systems. Effectiveness of cooperative-mini-grid-model is questionable.

The aim is to increase access to clean energy by improving the financial viability of, and promoting large-scale commercial investment in, solar photovoltaic minigrids in Burkina Faso. The project will also support the government's COVID-19 recovery efforts and strengthen the resilience of vulnerable communities by supporting livelihoods and ...
