Indian billionaire Gautam Adani has been charged with fraud in the US. He is accused of orchestrating a \$250m bribery scheme to secure contracts for his renewable energy company, according to a report by the BBC. The charges, filed in New York, allege that Adani and senior executives concealed the scheme to raise funds in the US.

Gautam has over 17 years of audit experience. His experience in the area of capital markets includes assurance involving a variety of financial products and investment vehicles, such as digital asset funds, private equity and venture capital funds, and hedge fund structures.

Gautam Adani was quoted by PTI: "The next decade will see us invest more than \$100bn in the energy transition space and further expand our integrated renewable energy value chain that today already spans the manufacturing of every major component required for green energy generation.
