

Cegelec energy Uganda

What is Cegelec?

Cegelec is a part of Vinci Energies Group with business units that offer innovative solutions for installations and industrial processes. Electrical & Instrumentation Engineering is at the heart of Cegelec's corporate history and skills.

What does UEGCL stand for?

The Uganda Electricity Generation Company Limited (UEGCL) is a parastatal company whose primary purpose is to generate electric power for use in Uganda and for sale to neighboring countries. As of December 2017, UEGCL's generation capacity was 380 megawatts, with that capacity planned to increase to over 1,300 megawatts, by 2023.

Who is UEGCL CEO Harrison Mutikanga?

With UEGCL's CEO, Dr. Eng. Harrison Mutikanga, highlighting the company's journey from asset holder to a major operator of Uganda's hydroelectric plants, including the 600MW Karuma Hydro Power Plant, attendees are gaining valuable insights into the nation's energy transition and growth.

What is the evolving Ugandan energy sector?

Under the theme, "The Evolving Ugandan Energy Sector," the forum is facilitating discussions and networking among key players, fostering meaningful dialogue on challenges, opportunities, and advancements shaping the Electricity Supply Industry.

Where is UEGCL located?

The headquarters of UEGCL are on Block C, Victoria Office Park, Plot 6-9 Okot Close, Bukoto, in Kampala, Uganda's capital and largest city. Its coordinates are 0°17'19.35.0"N, 32°17'34'38.0"E (Latitude: 0.326389; Longitude: 32.577222).

How does UETCL resell power?

UETCL resells the power to Umeme, the energy distributor, which then sells it to the public. As of 30 June 2020, UEGCL controlled 563 megawatts of the national installed generation capacity of 1,252 megawatts, accounting for about 45 percent.
