Over \$200 million of private capital has been invested in solar projects in the city since 2016 alone. According to the Solar Foundation's 2018 Solar Jobs Census, solar industry jobs are expected to grow by at least 7% this year and solar installations have increased dramatically over the last two years.

My thought is that in this instance the "grid" would in fact be the solar set up. I plan to connect the generator to the inverter as in the diagram below. I have a few questions for this connection/series of events. I see it as follows: View attachment 8291. Solar Panels provide power to the AC Output & batteries

Jackery 3000 Pro Solar Generator + 2x 100W Solar Panels Vast 3024wh Battery Capacity, 3000-watt/6000-watt AC Output; Super Fast 2.4 hours to Fully Charged with Wall Outlet AC Charging; Portable Design with Pull-Out Rod and Two Wheels, Moving It Around Easily; Including Two IP68 Waterproof 100w Solar Panels, Recharging Through Clean Solar Power

Here are some pros and cons of a solar generator like the Jackery 1000W: Pros: Clean & Quiet Operation: Solar generators run silently and emit no fumes or pollution, making them environmentally friendly. Portable: Solar generators are typically lightweight and easy to transport, ideal for camping, outdoor activities, or emergency situations.

I had no second thoughts about going solar and it's been a win-win all around. I get to save money, help educate other businesses like mine in Ward 7 about solar, with no up front cost. New Columbia Solar did all of the work and now I save 15 - 20% on my electricity bill. I've recommended New Columbia to 15 other businesses.

For one thing, solar generator costs are almost always two or three times as much as what you'd spend on a traditional fuel source generator. If your average gas generator costs about \$1000 a similar output solar ...
