In October 2019, Colombia's Mining and Energy Planning Unit (UPME) awarded contracts for nine wind and five solar projects, worth an estimated USD2.2 billion, to seven developers. The developers will sign a 15-year power purchase agreement (PPA) for 1.29 GW of wind and solar capacity due to be commissioned by January 1, 2022.

As a solar developer, Wendy De Wolf '18 often has to weigh project costs and benefits verging on the complicated, opaque, and even contradictory. After finishing her undergraduate degree, De Wolf took a job with Energy Management Inc., where she helped build the firm's solar group with her colleague Jamie Fordyce.

New Columbia Solar was founded in 2016 to serve the growing demand for clean energy in Washington, D.C. Unlike many solar companies, New Columbia Solar finances, designs, installs, and maintains solar energy systems, which makes us a partner to our customers for the lifetime of our installations. We take pride in the

The Colombian Solar Atlas is an interactive tool designed to visualize meteorological data and assess the current and future potential of solar photovoltaic (PV) generation across Colombia, South America. This tool integrates two distinct meteorological databases: historical satellite imagery data and regional-scale climate change projection models - GabrielNM/Atlas

Colombia has significant solar power resources because of its location in the equatorial zone, but the country sits in a complex region of the Andes where climatic conditions vary. The daily average radiation is 4.5 kWh/m², and the area with the best solar resource is the Guajira Peninsula, with 6 kWh/m² of radiation. Of the 6 MW of solar power installed in Colombia (equivalent to abo...

Columbia Business School's Climate Knowledge Initiative provides business leaders with the curated, actionable knowledge needed to pick investable and scalable green technologies, while unapologetically flagging areas where business and public interests diverge. Here you will find executive briefs, business case studies, PowerPoints, PDFs and more to share, adapt, and ...
