

# Containerized BESS project financing options in Guernsey 2030

Is blended financing a viable financial model for Bess projects?

As per McKinsey & Company, the market size of the BESS ecosystem is expected to reach \$150 billion by 2030. Thus, blended financing as a financial model should be considered, where public capital can be used as a first-loss capital for BESS projects. This offers private financiers the comfort of providing capital at a competitive rate.

What is the global Bess capacity in 2023?

As per the International Energy Agency (IEA), global BESS capacity was 85 GW (approximately 190 GWh) at the end of 2023 and is expected to reach 400 GW (over 1,200 GWh) by 2030 to enable the seamless grid integration of renewable energy, with the net zero 2050 emissions scenario as a target.

Can Bess projects be bundled together?

Independent BESS projects, only supporting renewable energy projects, can be bundled together, and issued as green bonds to potential large investors.

Can a Bess project be issued as a green bond?

Independent BESS projects can be bundled together and issued as green bonds to potential large investors. A partial credit guarantee can be provided by public capital providers to improve the credit ratings of green bonds, which is necessary to attract these low-risk-seeking investors.

What is a Bess project financing template?

valuable template for other BESS project financings around the world. A key element of this template is a project management framework that is replicable for other projects, which is in contrast to the traditional approach to energy storage projects, which has had the effect of restricting investment because it requires finance

Could a Bess deal be used as a template for future financings?

or supply chain disruption." A 'template' for future financings Kate Shannon, principal associate at Gowling WLG, legal advisor to Pacific Green on the Sheaf development, suggests the deal could be used as a template for future BESS project financings. "Part of the process of lenders getting more comfortable with BESS financing is going to b

What is a battery energy storage system (BESS) container? This includes features such as fire suppression systems and weatherproofing, ensuring that the stored energy is safe and secure. ...

This offers comfort to private financiers to provide capital at a competitive rate. Independent BESS projects, only supporting renewable energy projects, can be bundled ...
