Why should you choose Sembcorp?

As one of Asia's largest battery operators, Sembcorp's expertise in energy storage systems is well-positioned to support the transition to cleaner and more sustainable energy systems. Our in-house expertise allows us to build complex projects globally. In Singapore, we operate Southeast Asia's largest energy storage system.

What is Sembcorp Green Infra's 150 MW solar project?

Sembcorp green infra secures 150 mw solar project . (Image Source: Official website) A subsidiary of Sembcorp Industries, Sembcorp Green Infra, has won a 150 MW solar project. The project includes a 300 MWh Battery Energy Storage System (BESS). It was awarded by the Solar Energy Corporation of India Ltd (SECI).

What is a Bess project?

The project in Vranany, Melník, combines 30MW of BESS with another 22.4MW of gas generators to provide grid balancing services to the transmission system. Construction started in April last year and a May 2024 operation date was targeted.

What is Sembcorp doing with Jurong Island?

Sembcorp is active in international markets including the UK and has an energy storage portfolio of 709MWh. The energy and urban development group gave some more details on the Jurong Island project above what has been previously disclosed.

Will spearmint energy build a 400MW Bess in Indiana?

Plans for a 400MW standalone BESS in Howard County, Indiana, proposed by Spearmint Energy faced a major setback last week. Singapore has surpassed its 2025 energy storage deployment target, with the official opening of Southeast Asia's biggest BESS.

Who provided Bess solutions?

This article has been amended from its original form to highlight that BESS solutions were provided by Envision and Huawei. Energy-Storage.news' publisher Solar Media will host the 1st Energy Storage Summit Asia, 11-12 July 2023 in Singapore.

2 · This is Sembcorp's first solar and BESS hybrid project in India and brings the gross renewables capacity in India to almost 6GW, including over 2GW of greenfield projects won in 2024. This brings Sembcorp's global renewables capacity to 16.5 GW, including a 49MW acquisition pending completion.

BESS portfolio o 2,000 acres of site located within the Teesside UK industrial cluster o Ready-to-go infrastructure and utilities with the largest private wire network in the UK o Supplying electricity and steam generated by gas, waste-to-resource and biomass o Over 40 fast-acting power stations and BESS sites
