San Marino -- a small but progressive republic -- has achieved an impressive milestone in its renewable energy journey. Over the past 15 years, the country has installed more than 4,200 private solar systems.. This remarkable achievement places San Marino among the global leaders in solar power production, with 450 watts of energy produced per capita.

How much does solar cost in San Marino, CA? Based on the latest data from the EnergySage Marketplace, the average San Marino, CA homeowner needs a 10.39 kW solar panel system to cover their electric bills. That'll set you back about \$23,143 before incentives. Need a bigger (or smaller) system to offset your electricity use?
