How can a company become a supplier to ESS?

This page serves as an overview of the entry points to ESS, providing guidance on how companies can become suppliers to ESS. Companies interested in ESS business opportunities can register a business profile in the ESS Supplier Portal to enable matching of potential suppliers with ongoing procurements.

Is Germany a leader in European energy storage?

Germany is positioning itself as a leader in European energy storage, with significant growth driven initially by the residential storage sector. Recently, utility-scale installations have accelerated with 184 MW of utility-scale battery capacity added in 2023 across 44 projects.

What is Energy Storage Summit Germany?

Energy Storage Summit Germany will explore the current regulatory landscape in Germany, incentives from the proposed 2028 capacity market, trading best practice, understanding merchant revenue opportunities, project development challenges and will even explore Germany's unique opportunities in decentralized flexible assets.

Where can I find current business opportunities at ESS?

Current and forthcoming business opportunities at ESS are posted in the Procurement Listings. Completed tenders are published quarterly in the Contract Award Notices. All procurement follows the European Spallation Source ERIC Procurement Rules, which align with the EU treaty principles of transparency, non-discrimination and competition.

What is the Supplier Portal?

The Supplier Portal is an electronic tendering system used to publish tenders and relevant documentation and to receive submitted bids for ongoing procurements. Current and forthcoming business opportunities at ESS are posted in the Procurement Listings. Completed tenders are published quarterly in the Contract Award Notices.
