We react quickly to market and social developments and sustainably co-create solutions through targeted innovations. As a pioneer in technology with more than 25 patents, EC POWER ensures sustainable energy technologies for future ...

And let's make it short - EC POWER has the best eta-s value (?s) in its industry sector with the XRGI®. Remote power: Only with high losses. The classic power plant, which supplies electricity from the greenfield, has a decisive disadvantage: It utilises only approx. 40 % of the energy included in its fuel. The remaining 60 % gets lost as ...

The XRGI® BIOGENIC from EC POWER creates a circular and sustainable energy system. EC POWER"s XRGI® BIOGENIC runs on biogenic gases to generate heat and power on-site. XRGI® BIOGENIC can be used wherever biogenic gases are created and captured. This happens primarily in agriculture, wastewater treatment, food waste recycling, and landfills.

The average customer may see their monthly power bill drop by around \$53.19 come Feb. 1 if the Guam Power Authority gets the power bill adjustment it wants.

The combustion engine of the Power Unit - of the actual cogeneration plant - has been especially developed for EC POWER by Toyota, has an extremely long life, and is silent and reliable. The brain of the plant is the iQ control panel. This controls the Power Unit depending on its demand, and optimises its operation fully automatically.

EC POWER ENERGY CENTER: Den samlede energiløsning. Vores XRGI®-anlæg giver høj effektivitet og ydeevne. Det kan blive endnu større i EC POWER ENERGY CENTER, f.eks. i kombination med: Et batterisystem; Et solcelleanlæg; En ladestation til elbiler mm. Et kølesystem; En varmepumpe; Et Power-to-Heat-modul. Til vores komplette løsninger

Scalable for Every Project: Our models with electrical power outputs of 12 kWel can be scaled to achieve up to 72 kWel. Furthermore, they can be connected to each other to form virtual power plants. In the power class from 12 to 72 kWel, our XRGI® models rank highest in space-saving among other cogeneration plants on the market.
