

Energetic company Botswana

How can Botswana improve its energy supply?

This includes increasing the supply and reliability of Botswana's energy supply, reducing the cost of domestic electricity, reducing and ideally removing the need for Botswana to import external energy and creating a revenue stream through the export of cleaner electricity and sale of gas. ..

Who is New Energy Company (Pty Ltd)?

Currently, the company is producing electricity from 322 MW of solar power plants in the Zambia, South Africa. New Energy Company (Pty) Ltd is a company that provides a hassle free, affordable way to enjoy energy independence using high quality but affordable solar systems.

How can Botswana contribute to decarbonisation?

Meeting Botswana's shortfall in electricity supply and contributing to decarbonisation. Creating a large Southern Africa energy/industrial hub suitable for manufacturing renewable energy and energy storage products, new-age materials, and products aligned with the resources sector.

Is Botswana a good place to work?

Botswana is a fantastic place to work with a well-educated workforce and extremely friendly people. We are eager to provide an energy pathway that utilises Botswana's natural resources of gas and sunlight to empower the country.

Is hydrogen production a new high-tech industry in Botswana?

Hydrogen production would be an entirely new high-tech industry in Botswana. There are attractive commercial reasons to use CBM and atmospheric nitrogen to manufacture ammonia, urea and ultimately ammonium nitrate for use in fertilizer, explosives and as additive to diesel fuel.

How will Botswana achieve its Integrated Resource Plan objectives?

Botswana proposes to achieve its objectives through partnerships with Botswana's parastatals, the Botswana private sector and other interested parties. Our energy hub and industrial park is expected to contribute to Botswana's economy and support its Integrated Resource Plan objectives by:

The Serowe Energy Hub, alongside other projects in development, will consolidate Botswana's commitment to advancing renewable energy solutions in Botswana. The 4MW solar plant will complement a proposed 20MW gas/solar hybrid in the same hub, highlighting the company's integrated approach to sustainable energy.
