What makes EOS a great energy storage solution?

Positively ingenious. Eos is accelerating the shift to American energy independence with zinc-powered energy storage solutions. Safe, simple, durable, flexible, and available, our commercially-proven, U.S.-manufactured battery technology overcomes the limitations of conventional lithium-ion in 3- to 12- hour intraday applications.

Why should you invest in New Energy Products?

New products offer smarter, more powerful and resilient solutions to enable more choice and control in the way people use sustainable energy sources

What makes EOS a good battery?

Safe, simple, durable, flexible, and available, our commercially-proven, U.S.-manufactured battery technology overcomes the limitations of conventional lithium-ion in 3- to 12- hour intraday applications. It's how, at Eos, we're putting American ingenuity to work every day to create a positive future for everyone.

Why should you choose a battery-buffered charging system?

Alongside e-mobility, optimization of self-consumption and peak shaving are just the beginning. Our battery-buffered charging products offer ultra-fast charging up to 320 kW with a small footprint. This enables charging within minutes, even when grid power is too low for fast charging. Nearly at any location.

HiTHIUM's first 6.25MWh Energy Storage Solution is tailored for the North American market and the 4-hour long-duration energy storage application scenarios. Designed with a focus on cost ...

We offer sustainable energy storage solutions for indoor and outdoor use. Take advantage of this opportunity to become independent of rising energy prices and increase your overall share of ...

Discover our battery-based all-rounders that are suitable for numerous business models and integrate seamlessly with existing energy infrastructure. We use battery cells from highly ...

As its car sales stall, Tesla (TSLA) is expanding its growing energy storage business. At an event in Nevada Monday night, Tesla announced two new products, a Megapack 3 battery pack and ...

On April 18th, 2023, Sungrow, the global leading inverter and energy storage system solution supplier, received the highly coveted TM-2 approval and ...

1 · Australia's biggest battery storage tender awards more than 15 GWh of projects CIS Tender 3 targeted 4 GW/16 GWh of dispatchable capacity in the National Electricity Market ...

Energy storage battery product advertisement

An increase in energy density was among the key trends in large-scale storage, as manufacturers innovated to squeeze more battery capacity into container-sized products.

7 · Australia's consumer watchdog has warned thousands of households to check their Tesla battery energy storage systems with a nationwide recall in place after reports of the ...

Share success stories from businesses or homeowners who have used your battery storage products. Show the tangible benefits they experienced, such as reduced energy costs or ...

Tesla has unveiled two new energy storage products: Megapack 3, the latest generation of its utility-scale energy storage system, and Megablock, which integrates ...

Honeywell's Energy Storage Solutions provide technology, software, and services to help optimize operations, reduce carbon footprint, and deliver significant cost savings to industrial ...
