However, nowadays, technology has been shifting toward electric vehicles due to rising concerns about the environment. In EVs, mostly lithium-ion batteries are used, as they provide high energy density, have low self-discharge, and require little maintenance. Lithium-ion battery systems propel plug-in hybrid and electric vehicles.

FIAMM Battery Reserve Power Solutions is an internationally recognized leader in the development and supply of a wide range of industrial batteries and energy storage systems. FIAMM designs and manufactures backup power solutions to guarantee the continuity of the energy supply to critical applications when the main power is cut off.
