

Fiji solar star power

Why do we need solar power in Fiji?

By harnessing the abundant Fijian sunshine, we aim to power our pristine Fijian paradise with clean renewable solar energy for generations to come, thereby reducing Fiji's reliance on expensive and polluting diesel generation for electricity.

Why do organisations in Fiji switch to solar energy?

The answer is simple. Reduce costs, maintain control and look after Fiji. Organisations in Fiji choose to go solar for their energy for a variety of reasons, including financial, environmental, and strategic benefits. One of the primary reasons organisations in Fiji switch to solar energy is to save money on their energy bills.

Who is solar Fiji?

At Solar Fiji our competent staff install reliable solar-energy systems using top-quality components. We listen and learn from our customers at the same time as keeping right up to date with the latest training from our suppliers: Victron Energy, Hanwha Q-Cells and Narada Power - to name a few.

How can Fiji meet its energy needs?

In line with this plan, assessments have shown that a combination of solar, wind, geothermal, marine, biomass, and biofuel could be used to meet Fiji's energy needs. Currently, as much as 40 percent of Fiji's power is generated from diesel and heavy fuel oil, which is purchased via local companies from Singapore-based suppliers.

Will Fiji be able to source 100 percent of its energy?

Suva, Fiji, October 21, 2020- A landmark agreement between Energy Fiji Limited (EFL) and IFC to deliver the largest solar project of its kind in the Pacific to date has been hailed a transformative step that will take the island nation closer to its goal of sourcing 100 percent of its energy needs from renewable sources.

How many solar panels are installed in Fiji?

In total, around 4 MW of solar PV is installed with some grid-connected solar systems planned and many off-grid solar systems planned by Fiji Department of Energy with funding from Fijian government and overseas donor agencies.

Solar Fiji, supply and install the highest quality solar power systems in the South Pacific. Based in Nasinu, Suva, we specialize in Off Grid and Grid Connect Solar Power Systems and are official distributors of world leading brands such as ...

Fiji is embarking on a project to bring solar power to its remote islands. It starts by creating tenders for mini-grid construction, and employing tools to customize energy systems for each community ensuring each
