On world maps the Chagos Islands are named, "British Indian Ocean Territory" (BIOT), giving no indication that Diego Garcia is a U.S. base. The French first colonized the islands governing them as part of Mauritius in the 18th century, bringing enslaved Africans to the Chagos Islands before ceding them to the British in 1814.

Although the initial 240-tonne capacity trucks will be converted to zero-emission powertrains by 2030, most of the fleet will arrive in a battery-electric configuration. Currently, four autonomous trucks are undergoing validation at Fortescue's testing site, with the operational deployment of these trucks anticipated in the first quarter of 2025.
