Who is GreenGo energy?

GreenGo Energy is the go-to service provider and partner for institutional investors and investment funds that aim to unlock the value in renewable energy. Feel free to contact us about details and specific cases. "We develop green energy solutions of the future together with ambitious investors."

How many GW projects does GreenGo energy have?

GreenGo Energy has more than 27 GW projects in development or construction within solar, wind, BESS and PtX, through our Megaton (TM) Energy Park pipeline. Tier-1 investors from the global renewable energy sector.

Which projects are part of GreenGo energy's megaton project?

The projects are Stovstrup, Hemmet-Sønder Vium, Rønde-Hjortmose and Vennervej, which are all part of GreenGo Energy's Megaton project. We are thrilled to announce our expansion into France, a significant milestone in our mission to drive forward the global energy transition.

Is Namibia a future hub for green hydrogen?

This move underscores our commitment to driving the transition to a sustainable, NetZero future by leveraging Namibia's unique potential as a future hub for green hydrogen. GreenGo Energy and Doral Energy are excited to see the construction of Project M110, a 60 MWp solar park in Urup, Denmark taking place.

How much green energy will Copenhagen generate?

Once operational, the park will have an annual production of 75.5 GWh, which is equivalent to green electricity for +18,800 Danish households. It will also help save about 8,800 tons of CO₂ annually from the Danish energy production.

GreenGo Energy is the go-to service provider and partner for institutional investors and investment funds that aim to unlock the value in renewable energy. Feel free to contact us about details and specific cases.
