

Greenlinx battery Ireland

What is a greenlinx battery?

Greenlinx are the UK's first battery to use High Power Density (HPD) Lithium Cells, which can utilise 100% of the battery capacity (other lithium batteries can only use 90%). This is a battery unit that can easily be retrofitted into an existing solar panel system, or be a part of the design from the initial planning. So it is a flexible system.

How many greenlinx batteries can be connected?

Modular - from 1 to 8 Greenlinx batteries can be connected. PRICE INCLUDES INSTALLATION Good communication before and after I purchased an extra 6.5kW battery for my existing system. Battery arrived within the time stated. Friendly and knowledgeable installation team arrived on the same day and fitted battery without a hitch.

Who makes greenlinx battery storage?

Greenlinx are exclusively distributed by Infinity Innovations Ltd. in the UK and Europe. While they are quite recent to the UK market they are by no means new to the battery storage industry. As later arrivals to the domestic battery storage market they have certainly raised the bar in almost all areas of performance and technological development.

What is a greenlinx 3200 HPD battery?

The Greenlinx 3200 HPD battery offers power, quality, and robust performance with online monitoring to ensure that this is one of the premier products in the residential energy storage market. This BESS unit is also easy to install: it can be floor-mounted or fixed to a wall.

Who is greenlinx?

Greenlinx is an established manufacturer of renewable technologies and battery storage solutions. The domestic and commercial battery solutions are distributed globally with a very strong market share.

Is greenlinx a flexible system?

So it is a flexible system. Greenlinx sells batteries with a capacity of 3.2 kWh per unit. It is easy to link multiple batteries together to obtain the amount of battery storage needed. For example, if the system requires 12.8 kWh of storage, then four batteries will have to be purchased.
