Read reviews for SunSent Solar, a Energy Efficiency, Solar PV, Energy Storage, Backup Electricity Generation, EV Charging, Ground Mounts (Solar), Smart Electrical Panels, Standalone Battery Storage company since 2016 based in St arles, MO.

The estimated savings you can make with our Solar Savings tariff are based on a 2-3 bedroom home with a medium electricity demand of 2,700kWh (Ofgem), installing a 10 panel system with a 3.68kW inverter and a 10.5kw battery via a Good Energy package. It is estimated that you will export 20-25% of the power you generate.

The winter will obviously be different - I won't have enough solar to run the house or charge the batteries much. I guess in the winter I can get maybe 1/2 a days electricity from charged battery/solar (if I can charge the battery overnight sensibly) so would need to buy 6 to 8kWhr per day. In the height of summer I wouldn't need to buy ...

Solar Incentives in Port St. Lucie. Although a solar power system is typically a \$15,000 to \$25,000 investment, it can save you a considerable amount of money over the lifespan of your solar panels due to reduced energy bills and government incentives. These incentives mostly include cash rebates, tax credits and/or solar renewable energy credits.

Your solar panel battery should be kept indoors and fairly close to your main consumer unit (sometimes known as a fuse box or fuse board). This way it'll reduce the length of the connecting cables and minimise energy loss. Some solar power batteries can be wall-mounted (weight-dependent), otherwise they just sit on the floor.
