

# How to analyze the current status of energy storage industry in america

Where can I find energy storage industry data?

It is available individually each quarter or as part of an annual subscription. The quarterly reports from ACP and Wood Mackenzie are routinely cited by hundreds of media outlets as the authoritative source of energy storage industry data.

How do I redeem the US energy storage monitor yearly subscription?

To redeem the yearly subscription, please contact Wood Mackenzie. The US Energy Storage Monitor is offered quarterly in two versions - the executive summary and the full report. The executive summary is complimentary to member companies and provides a bird's eye view of the U.S. energy storage market and the trends shaping it.

What is the market share of energy storage in 2024?

By technology, batteries led with 82% of the United States energy storage market share in 2024, while hydrogen storage is projected to expand at a 28.5% CAGR through 2030.

Why is the energy storage industry growing?

The U.S. energy storage industry has been observing remarkable growth due to increasing demand for efficient battery storage from different sectors such as EV, renewable energy and many more. This is pushing numerous innovative initiatives in the industry. Solid-state batteries, gravity-based ESS are some of the innovations in the field.

What is the growth rate of industrial energy storage?

The majority of the growth is due to forklifts (8% CAGR). UPS and data centers show moderate growth (4% CAGR) and telecom backup battery demand shows the lowest growth level (2% CAGR) through 2030. Figure 8. Projected global industrial energy storage deployments by application

What is the future of energy storage?

The United States energy storage market share of assets exceeding 100 MWh is poised to rise fastest at a projected 36% CAGR. Falling cell prices and enhanced revenue stacking make gigawatt-hour-scale parks such as Moss Landing economically attractive. Capital-light software optimizes charge cycles to shield warranties.
