

# Hpe smart storage energy pack Jersey

The Power Information page displays the following information on servers that support the Smart Storage Energy Pack. Index The energy pack index number. Present The energy pack installation status. The possible values are OK and Not Installed. Status The energy pack health status. The possible values are OK, Degraded, Failed, or Other.

Hewlett Packard Enterprise `SmartEnergyPack` HPE SmartEnergyPack HPE iLO Energy Pack ...

Hewlett Packard Enterprise offers two centralized backup power source options to back up write cache content on HPE Smart Array controllers in case of an unplanned server power outage. In documentation and system messaging, "energy pack" is used to refer to both the HPE Smart Storage Battery and the HPE Smart Storage Hybrid Capacitor.

The health of the energy pack can be viewed using any of the following options: HPE iLO GUI under the Power & Thermal > Power. The controller's GUI & CLI tools along with HPE iLO Redfish under StorageController > CacheSummary. HPE iLO Redfish Chassis resource. Upon starting, the storage controllers exchange information with HPE BIOS during POST and ...

Ensure that the energy pack is fully charged. An HPE Smart Storage Battery may take up to 120 minutes in a powered compute module or frame to charge enough to support the number of battery-backed devices installed. An HPE Smart Storage Hybrid Capacitor takes only 5 minutes to charge. If the charge level is insufficient to support the battery-backed devices installed in the ...

Hewlett Packard Enterprise offers the HPE Smart Storage Battery as a centralized backup power source options to back up write cache content on the controllers in case of an unplanned server power outage. Once installed, the status of the energy pack displays in HPE iLO iLO.

The HPE Smart Storage Hybrid Capacitor is only supported on Gen10 and later servers. Only one energy pack is required per server, as it can support multiple devices. Procedure. Power down the compute module. Remove the compute module. Place the compute ...

SmartEnergyPack 150(???)  
SmartEnergyPackDDR

The HPE Smart Storage Hybrid Capacitor is only supported on Gen10 and later servers. One energy pack option can support multiple devices. An energy pack option is required for 900 series controllers.
