

Indonesia dowell battery

Should Indonesia invest in the electric battery industry?

Indonesia's ambitious targets in the electric battery industry offer a prime opportunity for strategic investments and partnerships. Foreign stakeholders are advised to adopt a comprehensive approach that includes regulatory compliance, sustainable practices, and market differentiation, to stay ahead of the curve.

Will Indonesia build a battery cell factory in 2022?

The joint venture aims to build a battery cell manufacturing facility in Indonesia. A partnership between the parties was first announced in 2022. According to IBC, up to USD 1.18 billion will be invested in the plant, which is expected to have a production capacity of 15 gigawatt hours.

Who is involved in EV battery project in Indonesia?

There are at least three main groups involved: Hyundai Motor Group, LG Energy Solution, and IBC (Indonesia Battery Corporation). The factory for this electric vehicle (EV) battery project is located in Karawang, West Java. It is built on an area of 32,188 square meters.

Will Indonesia produce EV batteries by 2024?

And Chinese automaker Wuling announced a plan last month to produce EV batteries at its Indonesia factory by the end of 2024, local media reported. "We see a huge potential for EV purchase in Indonesia compared to other countries in Asia," said BYD Indonesia official Luther Panjaitan.

How many battery-powered cars were sold in Indonesia in 2023?

More than 23,000 battery-powered cars were sold to dealers between January and August this year, compared with 17,000 in all of 2023, Indonesian automotive association data showed.

When will battery production start in Indonesia?

Production is expected to start in 2027. The Indonesia Battery Corporation (IBC) is a state-owned consortium established in 2021 to strengthen Indonesia's role in the global battery and electric vehicle supply chain. The consortium brings together several state-owned companies from the energy, mining and chemical sectors.

Our cutting-edge products are designed to enhance the efficiency and performance of battery manufacturing, providing you with reliable and durable batteries for a wide range of applications. With our expertise in battery technology, we offer comprehensive solutions for all aspects of battery construction, including advanced materials, precision ...

McConnell Dowell Indonesia has been carrying out project works for over 40 years where it delivers innovative, creative construction to remote locations. McConnell Dowell has all the necessary licenses to operate and under the foreign investment laws of Indonesia. We specialise in both high risk and technically challenging projects where the ...
