

Industrial energy storage tender price in Hungary 2026

Will Hungarian energy storage projects get subsidy support?

The Hungarian Ministry of Energy has announced that around 50 grid-scale energy storage projects with a cumulative capacity of 440 MW have received subsidy support through a tender launched in February this year.

How much does Hungarian government spend on energy storage projects?

The Hungarian government has allocated HUF 62 billion (EUR 158 million) for energy storage projects with an overall 440 MW in operating power. Hungarian authorities launched the tender for grid-scale batteries on January 15 and received offers until February 5. The winning bidders were selected a few days ago.

How many solar facilities will Hungary have in 2026?

In another tender, for a wider range of companies, contracts are being signed to support the completion of 50 facilities in 2026 with HUF 62bn of state contributions. Lantos said Hungary's solar energy capacity has surpassed 7.5 GW.

How will the Hungarian government support residential PV in 2024?

In 2024, the Hungarian government continues to support the growth of residential PV through its newly launched Napenergia Plusz Program, a grant scheme for the installation of modern solar panel and storage systems with a total budget of HUF 75.8 billion. The scheme is expected to support over 15,000 households.

Where will Hungary's largest energy storage system be built?

With funds obtained through a previous program, transmission system operator MAVIR is already building the country's largest energy storage system - a 20 MW project in Szolnok, central Hungary, the ministry said. It added that several projects with even bigger capacity will be installed under the tender concluded a few days ago.

What is Hungary's energy storage goal?

The ministry said that Hungary has set its 2030 energy storage goal at 1 GW in the updated National Energy and Climate Plan. Home » News » Electricity » Hungary awards EUR 158 million for 440 MW of energy storage

During this webinar, our expert speakers will analyze the tender results, what they mean for the future of Hungary's BESS market, and what investors can expect for the years to come in terms of the feasibility and profitability of storage projects.

The "solar boom" of recent years has caused significant price volatilities on the Hungarian wholesale electricity market. This has resulted in a steep rise in balancing costs for ...

Industrial energy storage tender price in Hungary 2026
