What services does iSun offer?

iSun's Data and Electrical Contractor divisions maintain a comprehensive suite of electrical and data construction and management services. Help us accelerate the World's transition to solar energy.

Why is iSun important?

From the clean rooms that enabled silicon chip production, to the telecommunication installation services that connected industries and consumers to the internet, iSun has enabled the most important technological transformations of the last century.

Why did Peck acquire iSun energy?

Peck expands its presence throughout the Northeast, installing over 200MW of solar installations. Recognizing the opportunity presented by vehicle electrification, The Peck Company acquires iSun Energy, an innovative manufacturer of branded, solar-powered carports capable of providing off-grid EV charging solutions.

Why did the Peck company rebrand as iSun?

The Peck Company rebrands as iSun. Original Clean Energy purchased iSun and took the company private. The goal of the transaction is to refocus the company and allow for stronger execution of large scale projects, as well as enabling the expansion into additional business opportunities.
