Who is solenco power?

Our company: discover more about our CEO and our team! Founded in 2015, and with a team with +50 years of experience in the hydrogen sector, Solenco Power is committed to the decarbonization of the energy sector. Dr. Hugo Vandenborre is the President and CEO of Solenco Power NV.

Why should you choose solenco?

Hydrogen can do that. At Solenco we believe in the power of green hydrogen to bring us to a sustainable solution for our energy demands. Only oxygen as side product, no CO₂ emission ! Solenco specializes in hydrogen energy storage systems for residential, commercial & industrial installations. With Solenco we go for endless renewable energy!

What is a solenco Powerbox?

The Solenco Powerbox is a so-called µCHP (micro combined heat and power device) that supplies both electricity and heat. In most situations, the Powerbox alone will not provide sufficient heat output to heat up a building completely. That is why a connection with a heating system, eg a heat pump, is recommended.

Will the solenco Powerbox be a disruptive technology?

"I, doctor Nicolas Brahy, representing Hydrogen Europe, will support the developing of the Solenco Powerbox, since it can be seen as a disruptive technology for bringing more renewable energy in the European Energy mix and paving the way for introducing hydrogen technology in our daily live."

The Solenco Powerbox is an energy storage system based on hydrogen tech. It is charged by electrical power from a renewable source (typically solar PV) and returns both heat and electrical power ...

Ziel des von der EU finanzierten Projekts Powerbox ist die Vermarktung der von Solenco Power NV entwickelten innovativen Energiespeicherlösung. Mit der Solenco Powerbox können Privathaushalte und kleine Unternehmen ihre selbst erzeugte Energie kostengünstig speichern, für Stunden oder für die komplette Saison.

Solenco Power NV products and equipment for Renewable Energy. Including Solenco POWERBOX - Reversible Fuel Cell System, Solenco POWERHUB - Renewable Energy ...

Solenco Power. Solenco Power NV is een KMO actief op het vlak van cleantech en energie-opslagsystemen voor woningen en commerciële gebouwen. Hun Solenco Powerbox is een energie-opslagsysteem gebaseerd op waterstof en biedt een geïntegreerde oplossing voor de energievoorziening van woningen.

The HYCOGEN is a micro combined heat and power fuel cell unit able to adapt to the electrical power and thermal demands of their users by using hydrogen as its sole fuel.

By 2030 Borkum, an island in the North Sea on the German North-West coast, aims to become fully decarbonised. As part of the EU-funded Islander project Solenco Power will deploy a 25 kW Solenco Energy Box. The Solenco Energy Box stores renewable energy when the demand is low and then supply the energy during peak consumption periods.

Dr. Hugo Vandenborre is the President and CEO of Solenco Power NV. With the help of joint shareholders VINCI Energies SA, Giacomini SpA, Energiek BV, Joris Van Dyck and HESTIA Holdings NV, the company focuses on residential, ...

Dat is volgens Vandenborre slechts een kwestie van tijd. In een volgende fase zou de Solenco Powerbox niet enkel de woning van stroom en warmte kunnen voorzien, maar wordt het ook mogelijk om thuis de waterstofauto bij te tanken. Lees meer over Solenco Power en andere Baanbrekers in editie Kempen van Gazet van Antwerpen op maandag 21 november

Solenco Power heeft die kip naar eigen zeggen gevonden, met de Solenco Powerbox. Waterstof voor warmte en elektriciteit. Die Powerbox is een omkeerbare fuel cell die zonne-energie omzet naar waterstof in gasvorm. Wanneer zonnepanelen te weinig energie produceren om in de elektriciteits- en warmtebehoefte van een woning te voorzien, zet de ...
