Where does Jersey's electricity come from?

Around 95% of the electricity we supply is imported from low carbon, hydro (34%) and nuclear (66%) sources in France through three undersea supply cables. These cable links have given us the ability to virtually completely de-carbonise Jersey's electricity supply.

We are incredibly proud that Momentum was awarded the ESG award at the EY Entrepreneur of The Year 2024 last night! This award is both a tribute to our journey as a company and to all ...

Momentum Energy Group has gone far ahead with their circular thinking. What started 25 years ago with two thirds of a wind turbine has grown into a true growth adventure today. The wind turbine is still a fundamental part of the company's DNA. And there's no doubt that this will continue far into the future.
