The Nigeria Solar Marketplace is a one-stop platform that facilitates connections that will lead to partnerships
and investment for inclusive and sustainable development of the Nigerian solar sector

The hybrid model, which combines solar energy generation with the existing hydropower plant, aims to tackle
the annual energy demand challenges during Liberia's dry seasons. "This hybrid model will help to address
the stubborn, annual challenge of dry season energy demand by harnessing low-cost solar resources
complemented by hydropower.

Liberia's Sustainable Power. We harness the most valuable resource in rural areas --tight-knit communities --
to provide life-changing products and services, starting with access to solar electricity.

We sell the various types of solar materials and also do installation all you need to do is to contact us on this
