

Longi green energy storage technology

Under its mission of "making the best of solar energy to build a green world", LONGi has dedicated itself to technology innovation and established five business sectors, ...

February 27th, 2025 | Jiangsu, China -On February 27,2025, Li Zhenguo, founder and president of LONGi Green Energy Technology Co., Ltd., attended the China Photovoltaic and Energy ...

It independently develops products such as the world's first power management system, IPCP, a 1500V high-voltage liquid-cooled energy storage system, a 5S ...

Founded in 2000, LONGi Green Energy Technology Co., Ltd. (LONGi) is a solar technology that develops solutions for large-scale power plants and for different industries and ...

LONGi Hydrogen Technology (Xi'an) Co., Ltd. ("LONGi Hydrogen") is a holding subsidiary of LONGi Green Energy Technology Co., Ltd. ("LONGi"), and is ...

Dear Shareholders, Reflecting on 2024, LONGi Green Energy experienced a significant year-on-year decline in revenue, leading to substantial net loss. This year has proven to be the most ...

By Ade Iyamoye In a move towards sustainable energy, Nigeria and China have signed a EUR7.6 billion green hydrogen agreement aimed at accelerating the nation's shift from ...

"We are honoured to partner with Vanda RE and Gurin Energy on this landmark solar-plus-storage project in Indonesia's Riau Islands, which underscores LONGi's ...

LONGi Green Energy has established a new company, Zhichu New Energy Co., Ltd., in Inner Mongolia. This company was officially registered recently, with a registered ...

Longi Green Energy, China's largest vertically integrated solar manufacturer, is reportedly making a rapid move into the battery storage market. According to Chinese media, ...

By partnering with or acquiring such companies, Longi positions itself to expand beyond solar module manufacturing and strengthen its role in renewable energy solutions that ...

Renewable energy accelerates the replacement of fossil energy With "Solar for Solar", LONGi officially joined the Global Initiatives RE100, EV100, EP100, and will keep building towards ...

As an expert in the new energy industry, Mr. Li's in-depth research and innovative achievements in

Longi green energy storage technology

photovoltaics and energy storage have provided crucial support for the company's ...

LONGi's development history, from the semiconductor era to the silicon chip era, through the solar energy technology era and the photovoltaic + hydrogen energy era, has been constantly ...

Chinese photovoltaics company LONGi Green Energy Technology Co is setting up a solar photovoltaic (PV) manufacturing facility in Malaysian with an investment of MYR 1.8 ...

's largest green hydrogen project so far. With a total investment up to RMB 3 billion, this project will build a new 300MW photovoltaic power plant and an electrolytic water hydrogen production ...

It also explains your rights regarding your Personal Information and the measures we take to safeguard it. About Us LONGi Green Energy Technology Co., Ltd. (Stock Code: SH 601012) is ...

LONGi's technological and manufacturing leadership in solar wafers, cells and modules underscores our commitment to helping accelerate the clean energy ...

Chinese group LONGi Green Energy Technology Co., Ltd. signed a framework supply agreement for a total capacity of 555 megawatts (MW) for its Hi-MO X10 solar modules with several ...

China's Sinopec announced that the nation's first 10,000-ton green hydrogen demonstration project had successfully produced hydrogen, and the output hydrogen was ...
