

Macao gemco energy

Who is Gemco energy machinery?

Established in 1990, Anyang GEMCO Energy Machinery Co., Ltd (GEMCO) deals principally in manufacture and export of the wood pellet mill, biomass briquette machine and oil press. We are the earliest company who can supply biofuel technology and equipment in China.

Who is Anyang Gemco energy machinery?

Read More Anyang GEMCO Energy Machinery Co.,Ltd,the leader of biomass pellet mill /briquette machine manufacturer in China,is one of the members of the first batch of suppliers in wood pelletizer and related biomass processing equipment since 2004.

What is Gemco factory?

GEMCO Factory We professionally deal with biomass pelletizer machine, biomass briquette machine, biomass pellet plant, and there are also other relevant biomass equipments for sale. Some of the products have obtained the relevant CE certificates.

Does Gemco have a technical R&D center?

GEMCO has a complete professional technical R&D center,which includes Project Departments of pellet mill,biomass briquette machine and complete pellet plant. There is 25 R&D staff in the center,a half of which has won doctor or bachelor degrees in their relevant researching fields.

Who is Gemco biomass briquetter / pelletizer manufacturer in China?

GEMCO, the leader of biomass briquetter / pelletizer manufacturer in China, is one of the members of the first batch of suppliers in wood pelletizer and related biomass processing equipment. We are constantly dedicated to the improvement and upgrading of biomass technologies in China.

What is Gemco R&D?

Over the past 10 years, GEMCO R&D team has developed several advantageous technologies: Over years of practicing and researching, our company has upgraded the heat treatment and processing of ring die pellet machine by adjusting technical parameters of ring die. Now the newest model ring die is patented.

20TPH Wood Pellet Plant in Vietnam (Max.32T/H) This 20ton/h wood pellet plant was built in Vietnam. There are in total 16sets of ring die pellet mills in the plant, 8 of them work normally; the other 8 are in case of machine faults.. The customer has wood chip as raw material.

The biomass pellet industry is witnessing rapid growth with the increasing global demand for sustainable energy. Countries are gradually recognizing the importance of biomass wood pellets as a clean fuel, which is driving the surge in demand for biomass pellets. ... GEMCO is a professional biomass pellet machine manufacturer with nearly 30 ...

GEMCO-Energy, since establishment in 1997, is dedicated to providing complete wood pelletizing solutions for customers around the world. With over 20 years of experience in the biomass energy industry, we specialize in designing, ...

The 6 tons per hour biomass wood pellet plant project was installed and constructed by GEMCO Machinery in Malaysia. The main equipment includes wood chipper, hammer mill, drum dryer, pellet machine and packaging equipment.Our customers are professional engineers with rigorous attitude throughout the construction process. They demand all the perfection and quality of the ...

Anyang GEMCO Energy Machinery Co, Ltd | 207 followers on LinkedIn. GEMCO Pellet Mill Must Be Your First Choice | Anyang GEMCO Energy Machinery Co., Ltd, the leader of biomass pellet mill / briquette machine manufacturer in China, is one of the members of the first batch of suppliers in wood pelletizer and related biomass processing equipment since 2004. As global ...

GEMCO has gained rich experiences in biomass fuel industry, including biomass pellets and biomass briquettes the past years, we have successfully built many biomass projects of biomass briquetting plant and biomass pellet plants all over the world. Our mission is to provide our customers the customized plan to save their cost and ensure the production efficiency to ...

GEMCO ENERGY, a professional biomass pellet mill manufacturer, has been in business for nearly 30 years. During these years, our pellet machines have been exported complete wood pellet production lines for sale to many countries and regions, such as Australia, Bulgaria, UK, Bulgaria, Vietnam, Malaysia, Serbia, Morocco, etc. and have been well ...
