

Marshall Islands orca energy

What is Orca Energy?

Orca Energy Group, Inc. is a company that provides natural gas to the power and industrial sectors in Tanzania and focuses on the development and production of proven gas resources. It was founded on April 28, 2004 and is headquartered in Road Town, British Virgin Islands.

What is Orca doing now?

In the long term, subject to 3D seismic results and contractual conditions, Orca aims to increase its sales volumes and expand its industrial gas distribution to displace higher carbon based and more expensive energy alternatives. Today, Orca is focused on sustaining current demand to support critical power generation and industrial demand.

What does Orca do?

Orca aims to have a positive impact on its country of operations, its people and the population whom we operate alongside, while reliably supplying natural gas to support Tanzania's power and industrial growth in a bid to help the nation transition towards a lower carbon economy.

Will Orca drill in Q4 2022?

The Company has an active work program with plans for a 3D seismic acquisition in Q4 2022 to further prove up prospective resources for drilling. Orca has been successfully producing from Songo Songo since 2004 and is on track to deliver average production in 2022 of between 120 mmscfd and 130 mmscfd.

Research and Development focuses on continuous improvement of ORCA's engineered fabrics. Our priorities are mechanical and chemical resistance, lightness, color resistance and environmental protection (in design, production, use and disposal of ORCA's fabrics). ... our production plant has integrated the latest standards to reduce its ...

Our ORCA's Drop-stitch fabrics with TPU coating are designed for inflatable structures with high airtightness and ageing properties, along with minimum weight. They are used for performant products as inflatable floors, rescue air tracks, SUPs etc. Our range starts at 50mm height, feel free to contact us if you have specific request.
