The TAG Heuer Formula 1 collection uses a silver oxide battery, specifically the Renata 394 battery. This battery offers a long lifespan and high precision, making it an ideal choice for the Formula 1 collection. Conclusion. In conclusion, ...

Using the boost switch did nothing! It was an older unit but well used an trying to chase the battery cables was difficult. I was able to perform a voltage drop on the cables as the battery cables ran from the batteries in the rear to mid point of the coach, from there they connected to inverter, then generator an other high amp devices.
