

Microgrid storage tender price in China 2026

In December, PowerChina's 2025-2026 energy storage system procurement, which sought 16 GWh of BESS, saw bids ranging from \$60.5/kWh to \$82/kWh, averaging \$66.3/kWh.

As discussed in CRU's China Mobile 2025/2026 tender announcement insight, this sharp price drop reflects broader market dynamics - notably reduced domestic consumption amid persistent oversupply in recent years.
