Who is Natron Energy?

SANTA CLARA, Calif., August 15, 2024--Natron Energy, Inc. ("Natron" or "the Company"), a global leader in sodium-ion battery technology, today announced plans to build the first sodium-ion battery gigafactory in the United States.

Will Natron Energy build a Gigafactory in Edgecombe County?

Natron Energy, Inc., a global leader in sodium-ion battery technology, will build the first sodium-ion battery gigafactory in the United States at the Kingsboro megasite, creating more than 1,000 jobs, Governor Roy Cooper announced today. The company will invest nearly \$1.4 billion in Edgecombe County.

Is natron a leader of the next battery Revolution?

"This facility advances Natron Energy's position as the leader of the next battery revolution," said Wendell Brooks, co-CEO, Natron Energy. "Once operational, the Edgecombe County facility will accelerate Natron's growth trajectory, allowing us to capitalize on the growing demand for efficient, safe, and reliable sodium-ion battery energy storage."

How much does Natron Energy Invest in Kingsboro?

The nearly 1.2 million sq. ft. facility, located at the 437-acre Kingsboro megasite, will represent a total investment of nearly \$1.4 billion from Natron Energy, facilitated in part by a Job Development Investment Grant (JDIG) approved by the state's Economic Investment Committee earlier today.

Where are Natron batteries made?

The facility will be located in Edgecombe County, NC, and is expected to produce 24GW of Natron's revolutionary sodium-ion batteries annually at full capacity. Natron's sodium-ion batteries offer higher power density, more cycles, a domestic U.S. supply chain, and unique safety characteristics over other battery technologies.

Is North Carolina a good place to build a natron power plant?

"North Carolina, with its leadership in clean energy manufacturing and commitment to fostering innovation, is an ideal home for Natron and this groundbreaking facility," said Colin Wessells, Founder and co-CEO, Natron Energy.
