The Global Entrepreneurship Network is a 501(c)3 organization that operates an array of programs in 200 countries aimed at making it easier for anyone, anywhere to start and scale a business.

This page presents a high-level insight into extreme events and how extreme events differ from mean climate. Extremes are often related to different physical processes than those that govern long-term means. While an average change in precipitation is primarily due to circulation changes, extremes are much more sensitive to the thermodynamic state and conditions during specific ...

In 2012 National Geographic's Pristine Seas project went on an expedition to the Pitcairn Islands--a legendary and remote archipelago in the middle of the Pacific Ocean--and returned with footage of incredible natural wonders underwater and on land. The expedition led to the historic announcement that the British government has created the ...

The UK's energy regulator the Office of Gas and Electricity Markets (Ofgem) has approved two pilot projects for interconnectors that will link transmission networks with offshore wind farms in the North Sea.
