

PV energy storage project financing options in Argentina 2025

What are Rigi-approved solar projects in Argentina?

Notably, the first RIGI-approved project is YPF Luz's 305 MW solar photovoltaic park in Mendoza, with an investment of US\$211 million. Vaca Muerta, holding the world's second-largest gas reserves, represents a cornerstone of Argentina's energy strategy.

Can battery energy storage modernize Argentina's grid?

Argentina's ambitious push toward grid modernization through battery energy storage has received an enthusiastic response, with CAMMESA (Compañía Administradora del Mercado Mayorista Eléctrico) confirming the submission of 27 project proposals from 15 companies under its AlmaGBA program.

Will Argentina integrate new electricity storage infrastructure into urban distribution networks?

This national and international open call, part of Resolution SE 67/2025, marks Argentina's first large-scale effort to integrate new electricity storage infrastructure into urban distribution networks.

How many MW of battery energy storage will be deployed in Buenos Aires?

The initiative aims to deploy 500 MW of battery energy storage systems (BESS) in the Greater Buenos Aires Area (GBA), but the submitted capacity has far exceeded expectations--reaching a combined 1,347 MW.

What happened to Argentina's inflation in January 2025?

Under Milei's leadership, Argentina has made significant progress in economic stabilization, with monthly inflation dropping to 2.2% in January 2025 (the lowest since July 2020) from nearly 26% in December 2023. The annual inflation rate fell to 84.5% in January 2025, dropping below 100% for the first time since January 2023.

The full list of projects awarded can be accessed [here](#), while the list of projects invited to improve their offer can be accessed [here](#) (both in Spanish). [Energy-Storage.news](#) ...

In a strong show of interest, 15 companies submitted 27 different project proposals. These represent a combined investment commitment of over \$1 billion and a total of ...

Creating a fast-track in Customs to streamline import processes. Helping projects understand and mobilize the different options of financing available. Helping minimize possible logistics ...

financing Subsidies and new business models from the capital market to finance the solar energy transition are the focus of this topic. Investors and banking experts in particular will find what ...

PV energy storage project financing options in Argentina 2025

Similar to other renewable energy projects, the addition of construction bridge debt provides an additional source of capital to pay construction costs, but also adds ...

A total of PLN 4 billion (\$1 billion) will be distributed under the subsidy scheme by the end of 2025 in a bid to bring online more than 5 GWh of energy storage projects by 2028.

Pylon focuses on the field of energy storage and adheres to the business philosophy of Trusted Delivery to provide users with highly reliable, flexible, and cost-effective solutions for energy ...

The U.S. Department of Energy Loan Programs Office (LPO) today announced the closing of a \$584.5 million (\$559.4 million in principal and \$25.1 million in capitalized interest) loan guarantee to subsidiaries of ...

Executive Summary of D3.4 Many biogas projects are not reaching the implementation stage because of the lack of access to suitable financing. Understanding the drivers and barriers that ...

There are over 1,200 major energy storage projects currently in the database, representing more than 92,500 MWh of capacity. The list shows that there are more than 176 GWdc of major solar projects currently operating.

The loan guarantee will finance the deployment of up to 1,000 solar photovoltaic (PV) systems and battery energy storage systems (BESS) located primarily at commercial and ...

Located in the solar hotbed region of Atacama in northern Chile, the Domeyko project will have an 83MW solar PV capacity and 660MWh battery energy storage system (BESS) capacity.

Argentina's Wholesale Electricity Market Administrator (CAMMESA) has published the contract template for the "AlmaGBA Storage" tender, which aims to add up to ...

In today's uncertain environment, developers are seeking specialized partners that allow them to access capital earlier in the project lifecycle. While various options like royalty payments and securitization exist, ...

Bids were due by June 10, 2025, with evaluations in early July, awards shortly thereafter, and contract signings starting July 28, 2025. Projects must be completed within 12 ...

La adjudicación de las ofertas será el 29 de agosto de 2025. Los contratos de almacenamiento se celebrarán con las distribuidoras Edenor y Edesur, y contarán con el respaldo de Compañía Administradora del Mercado ...

In a global context where energy storage is becoming critical for grid reliability and decarbonization, Argentina's over-subscribed tender illustrates the appetite for scalable, bankable C& I ESS projects--and the

effectiveness of ...

The awarded projects are part of the Alma-GBA tender, which targets critical nodes in the Buenos Aires Metropolitan Area (AMBA) to enhance grid reliability and efficiency.

Including Project Marahu, the LPO's closed and conditionally committed financing supports over 100% of the capacity PREPA aimed to procure under its initial energy storage request for proposals (RFP).

The Argentine Energy Secretariat, which is part of the Ministry of Economy, has launched an international call for proposals seeking to add 500 MW of battery energy storage system (BESS) capacity ...

The 1,200 MWh Papago Storage project will dispatch enough power to serve 244,000 homes for four hours a day with the e-Storage SolBank high-cycle lithium-ferro ...

La Secretaría de Energía plantea instalarla en nodos críticos del área metropolitana de Buenos Aires, con una inversión estimada de 500 millones dólares y un plazo de ejecución de entre 12 y 18 meses.

Argentina's energy sector is undergoing significant transformation under President Milei's administration, presenting renewed opportunities for foreign investment in ...

Enlight Renewable Energy has secured US\$773 million in debt financing for its Country Acres solar-plus-storage project in California.

The 2025 edition presents a new, updated base-case scenario and a deep dive into key trends affecting the energy transition in the next 10 years to support corporations, financial institutions ...
