

Peru hyperion energy

What is Hyperion Energy?

Hyperion Energy is a company that is quickly becoming a strategic enabler for Cypriot and regional customers by developing a portfolio of technology equipment, systems, and solutions through a network of carefully selected partners. Hyperion Energy is a key player in increasing the effectiveness, efficiency, and profitability of operations.

How much copper does Peru produce a year?

The mine was Peru's top copper producer in 2022, with an output of 467,905 metric tons, but has since fallen to number two, according to data from the Mines and Energy ministry. Production is expected to remain steady in 2024, in line with the 435,378 metric tons it produced last year.

Will Peru's Copper production remain flat in 2025?

Peruvian copper production is expected to remain flat in 2025 for the third straight year, according to the country's top mining association and industry analysts, as declining ore grades and a lack of new projects cap output.
