

NHPC Limited is seeking to select Solar Power Generators for the establishment of 1200 MW grid-connected solar PV power projects with 600MW/1200MWh Energy Storage Systems (ESS) in India through a competitive bidding process. ...

Based on its modeling, Aurora foresees double digit internal rates of return for standalone BESS projects entering the market as early as 2026, while co-located assets could ...

The government of Romania is looking to support the deployment of commercial and industrial (C& I) battery energy storage systems (BESS) to the tune of EUR 103.5 million. Minister of Energy Virgil ...

Following the positive assessment of the Romanian Recovery and Resilience Plan, the Commission has approved a EUR103 million Romanian scheme to support the ...

Romania's energy ministry has re-launched a competitive tender for battery storage projects, seeking to have at least 240MW/480MWh of energy storage facilities up and ...

Romania has launched a new subsidy scheme for behind-the-meter battery energy storage systems to the tune of EUR 150 million (\$158 million). With the funding secured ...

The objective of the call is to put into operation a minimum of 240 MW of electricity storage in batteries, which equals 480 MWh, by June 30, 2026. The aim is to contribute to Romania's National Recovery and Resilience ...

The National Renewable Energy Laboratory (NREL) publishes benchmark reports that disaggregate photovoltaic (PV) and energy storage (battery) system installation costs to inform ...

The Bulgarian Ministry of Energy is readying to launch a tender on September 2 and provide Capex support for the construction and commissioning of 3 GWh of standalone energy storage facilities ...

The procurement aims to improve the reliability of Moldova's grid, facilitate energy trade with neighboring Romania and Ukraine, and support the integration of locally produced renewable ...

The objective of the call is to put into operation a minimum of 240 MW of electricity storage in batteries, which equals 480 MWh, by June 30, 2026. The aim is to ...

Share From ESS News Romania has launched a new subsidy scheme for behind-the-meter battery energy

storage systems to the tune of EUR150 million (\$158 million).

Romania has concluded its maiden auction round under the country's contracts for difference (CfD) scheme, selecting 1.528 GW of new solar PV and wind energy capacity. Winning prices were 20% to 30% lower than the ...

Daily auctions will be organized from July 1, with the starting price calculated by dividing the total valuation of the grid development by the total available grid capacity.

Meanwhile, the remaining EUR49.75 million is intended for new projects in Romania that would add solar PV cell and module (panel) production, assembly and recycling capacity to the tune of at least 200MW per year by mid ...

In a significant development for India's renewable energy sector, a solar project integrated with energy storage has recorded a tariff of INR3.32 per unit--5.8 per cent lower than the rate discovered in a similar tender by SECI in ...

Tenders Issued New RFS Issued: About 5100 MW of RE tenders was issued in March 2025. NHPC issued a 1200 MW ISTS-connected photovoltaic solar energy tender with 600 MW/1200 ...

Within the framework of Energy Week Black Sea 2025 - a unique platform bringing together key stakeholders from Romania, Bulgaria, Moldova, Ukraine, Türkiye, and Georgia - we had the opportunity to speak with Andrei Manea, ...

The Romanian Energy Ministry has signed contracts to distribute close to EUR 70 million (USD 76.3m) in grant funding that will support the construction of a 1.5-GW solar panel manufacturing plant and five large-scale ...

The photovoltaic facility in western Romania will likely become the biggest in Europe, at 1.04 GW in peak capacity and with batteries. The communes of Pilu and Graniceri, ...

Romania has selected 1,528 MW of onshore wind and solar photovoltaic (PV) projects in its first contract for difference (CfD) tender, at prices that were 20%-30% below the cap, the Romanian Photovoltaic Industry ...

According to Polaris Energy Storage Network, in May, Dingxi City, Gansu Province, issued an EPC tender for the integrated PV ESS and charging piles project in Anding ...

The most popular categories are - Romania solar tenders Romania solar thermal systems tenders Romania solar pv tenders Romania solar street lights tenders Sign up to get ...

Photovoltaic ESS tender price in Romania 2026

The first call targets the establishment of a minimum 240 MW/480 MWh battery energy storage capacity by June 30, 2026, with a budget of about EUR 79.6 million. The ...

France's latest tender for ground-mounted photovoltaic (PV) power capacity saw further price reductions, with 948.3 MWp of projects awarded. The tender, part of the ...
