

Al Ward Al Joury Solar PV Park is an 11MW solar PV power project. It is located in Maan, Jordan. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently active. It has been developed in a single phase. Post completion of construction, the project got commissioned in October 2016.

Shams Ma'an Power Plant is a 160 MW photovoltaic power station in Ma'an, Jordan. As of 2018, it is the second largest solar power plant in the region. It was inaugurated on October 8, 2016, as part of Jordan's long-term plan to diversify its energy resources. The plant produces 1% of Jordan's total electrical energy production, with the project ...

Jordan's largest solar power plant. Bennouna Solar Power Plant Project; Situated in the east of Jordan's capital, Amman, the Bennouna plant, which became commercially operational in 2020, is Jordan's largest solar project, serving 160 thousand homes annually, and contributing to reducing CO2 emissions by 369 thousand tons per year. ...

Oryx Solar PV Park is a 10MW solar PV power project. It is located in Maan, Jordan. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently active. It has been developed in a single phase. Post completion of construction, the project got commissioned in June 2016. Buy the profile here.

Shams Ma'an Power Plant is a 160 MW photovoltaic power station in Ma'an, Jordan. As of 2018, it is the second largest solar power plant in the region. It was inaugurated on October 8, 2016, as part of Jordan's long-term plan to diversify its energy resources. The plant produces 1% of Jordan's total electrical energy production, with the ...

Disi Aquifer Solar PV Park is a 33MW solar PV power project. It is planned in Aqaba, Jordan. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently at the permitting stage. It will be developed in a single phase.

Jordan Green Ammonia Solar PV Park is a 530MW solar PV power project. It is planned in Aqaba, Jordan. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently at the announced ...

South Amman Solar PV Park is a 46.33MW solar PV power project. It is located in Amman, Jordan. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently active. It has been developed in a single phase. Post completion of construction, the project got commissioned in April 2020. Buy the ...

Power plant solar Jordan

In October 2016, Jordan signed a power purchase agreement with Masdar, a clean energy developer based in Abu Dhabi, UAE to build the biggest single solar installation in the country, Baynouna Solar Power Plant, with a 200 MW capacity. The project became operational in 2020 and delivers the equivalent of 160,000 local households with their power ...

Jordan-Israel Solar PV Park is a 600MW solar PV power project. It is planned in Jordan. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently at the announced stage. It will be developed in a single phase.

Greenland Solar PV Park is an 11MW solar PV power project. It is located in Maan, Jordan. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently active.

Baynouna Solar Power Plant is a 200 MW photovoltaic power station in Amman, Jordan nstruction began in late 2017, and it opened in 2020. [1] The plant is the largest in the country and will produce 4% of Jordan's total electrical energy production, with the project costing around \$260 million. [2] It has been operational since February, 2023.

Solar Power Plants in Jordan. Jordan generates solar-powered energy from 25 solar power plants across the country. In total, these solar power plants has a capacity of 567.5 MW. Name Capacity (MW) Type Other Fuel Commissioned Owner; Al Ambaratouria: 51.0 MW: Solar: Al Badiya: 10.0 MW: Solar: Al Badiya 2: 11.0 MW: Solar: Al Safawi ...

Shamsuna Solar PV Park is a 10MW solar PV power project. It is located in Aqaba, Jordan. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently active.

Fotowatio Al Mafraq Solar PV Park is a 67MW solar PV power project. It is located in Mafraq, Jordan. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently active.

Falcon Maan Solar PV Park is a 23.1MW solar PV power project. It is located in Maan, Jordan. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently active.

EJRE Jordan Solar PV Park is a 22MW solar PV power project. It is located in Maan, Jordan. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently active. It has been developed in a single phase. Post completion of construction, the project got commissioned in September 2016. Buy the ...

Jordan Prime Minister Hani Fawzi Al-Mulki has opened the 105MW Quweira solar power plant in the Kingdom of Jordan. For the construction of the solar power plant, autonomous foreign aid agency Abu Dhabi Fund for Development (ADFD) has provided AED550m (\$150m).

AlQatrana power plant is located in Jordan, about 90 km to the south of the capital, Amman. The plant uses natural gas as a fuel source and comprise a combined cycle system, including two Siemens gas turbines (SGT6-2000E), integrated with high- and low-pressure steam turbines run through a heat recovery unit (HRU). ... An integration of ...

Mafraq-Jordan Solar Park is a ground-mounted solar project. The project generates 22,000MWh of electricity. Development status The project got commissioned in October 2015. Power purchase agreement The power generated from the project is sold to Irbid District Electricity under a power purchase agreement for a period of 20 years.

Adenium Lafarge Rashadiya Solar PV Park is a 15.64MW solar PV power project. It is located in Tafilah, Jordan. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently active. It has been developed in a single phase. Post completion of construction, the project got commissioned in October 2019.

AM Solar owns a 52 MW solar plant in Jordan, which started its commercial operation in September 2019. All electricity produced and the capacity made available by AM Solar IPP is purchased by National Electric Power Company (NEPCO) under a long term Power Purchase Agreement ("PPA") until 2039.

Arabia One-Maan Solar PV Park is an 11.5MW solar PV power project. It is located in Maan, Jordan. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently active.

Data and information about power plants in Jordan plotted on an interactive map. Data and information about power plants in Jordan plotted on an interactive map. database.earth ... Solar: Rehab CCGT Power Plant Jordan: 357.0 MW: Gas: Risha OCGT Power Plant Jordan: 150.0 MW: Gas: Samra CCGT Power Plant Jordan: 1031.0 MW: Gas: Shamsuna: 10.1 MW ...

Risha Solar PV Park is a 61.3MW solar PV power project. It is located in Amman, Jordan. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently active.
