EATON Powerware® 9355 UPS (20/30 kVA) Installation and Operation Manual S 164201626 Rev B 1
Chapter 1 Introduction The Powerware ® 9355 uninterruptible power supply (UPS) is a true online,
double-conversion, three-phase system that can be used to prevent loss of valuable electronic information and
minimize equipment downtime.

POWERWARE® 9120 700, 1000, 1500, 2000 & 3000VA User's Guide Important Notice The UPS
ground (earth) conductor carries leakage current from the loads in addition to any leakage current generated by
the UPS. This UPS generates no more than 1 mA of current. To limit the total leakage current to 3.5 mA, the
load leakage must be limited to 2.5 mA.

Powerware solutions have been recognized by UPS users and industry experts for delivering highest customer
value and satisfaction as well as for demonstrating most insight into customer needs among all UPS vendors.
Ranked number one in the global UPS market above 5 kVA and number two at or under 5000 VA, Powerware
products and services have ...
