What is a battery energy storage system (BESS) container?

Battery Energy Storage System (BESS) container is a specialized, modular unit designed to house and operate large-scale battery storage systems. These containers are typically used in applications ranging from grid energy storage and renewable energy integration to backup power and commercial solar Storage Batteries.

What is a shipping container?

The container is usually the size of a standard shipping container (20 or 40 feet) for ease of transport and scalability. Battery Modules: Inside the container, there are racks of battery modules, which are the core of the storage system. These batteries are commonly lithium-ion, but other types like lead-acid or flow batteries can also be used.

What is a power container?

Connectivity and Integration: These containers are designed for easy integration with existing power infrastructure. They come with necessary electrical connections and are often equipped with remote monitoring and control capabilities, allowing operators to manage the system from a distance.

In addition to our leasing services, Container for sale sells a full range of intermodal equipment including dry cargo, refrigerated, open tops, flat racks and units with multiple doors.
