As solar and wind farms usually have an agreed price for their output, asking generators to stop producing energy leaves this cost to be covered, driving energy prices below zero. According to Martin, negative pricing is more common in the UK's Day Ahead and Same Day markets than other markets in Europe; for example, 2 July saw Day Ahead ...

The Virgin Islands Water and Power Authority, which serves the US Virgin Islands, also has been pursuing microgrids, winning \$ 4.4 million in funding earlier this year from the Federal Emergency Management Agency for the first phase of a \$129 million solar microgrid planned on western St. Croix. When finished, the microgrid plus 4 MW of solar from another ...
