Will G7 energy ministers meet with Ukraine's badly damaged power infrastructure?

ROME, Sept 20 (Reuters) - Energy ministers of the Group of Seven (G7) industrialised powers and other smaller countries will meet on Monday with Ukraine's badly damaged power infrastructure on the agenda, Italy's foreign minister said.

How did Ukraine survive the Russian attack on its energy system?

Last winter, Ukraine survived the months-long onslaught of Russian attacks on its integrated energy system, thanks to the brave efforts of the Government of Ukraine, Ministry of Energy, energy companies and the Ukrainian people, and with support from the international community.

How has Russia impacted Ukraine's energy system?

Since October 2022, Ukraine's energy system has been one of the main targets of Russia's brutal military attacks. Russia has escalated its attacks since March 2024, causing significant damage to Ukraine's power generation capacity and further endangering the Ukrainian people's access to critical services.

Are solar panels damaged in Russia's attack on Ukraine?

Solar power panels damaged in shelling are seen at a power station that was producing 2.5 megawatts of power, amid Russia's attack on Ukraine, in the town of Merefa on the outskirts of Kharkiv, Ukraine May 28, 2022.
